

#### **Novice Range**

Our customers love Novice! Built to the same precise standards as our other ranges the Novice provides sturdy stabling at amazing prices. To achieve this we've utilised the latest production technology coupled with our superior buying power and we've put everything we've got into our Novice stables.

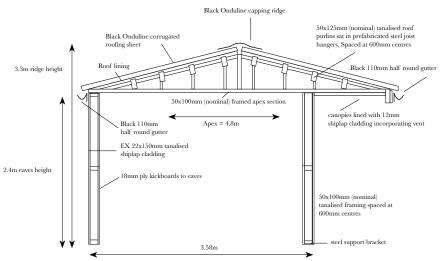

#### **National Range**

The National is our standard range offering many unique design features - it's the one that's made us a household name! We love it, what's more over the last 30+ years we've honed it to perfection. With thousands of satisfied horse owners throughout Europe the National range gives you the best possible quality at the best possible price

### **Grand National Range**

The Grand National is designed and manufactured to even higher standards - these units are made from the finest and most robust materials available and will withstand the wear and tear of the professional equine environment. The Grand National Range is also fitted with our traditional ledge and brace timber doors complete with chewstrips and fully adjustable hinges.

## **Cheltenham Gold**

The Cheltenham Gold is designed and manufactured to the highest possible standards. The shiplap is 22mm thick and framing has been stepped up to 2" x 4" (50mm x 100mm) and the eaves height is 8' (2400mm). Canopies are lined with 12mm shiplap. These buildings will withstand the test of time and will without question please the most discerning clients.
